

NH NEXT

A SUMMIT FOR YOUNG
CHANGEMAKERS

To Whom It May Concern,

I'd like to attend [NH Next: A Summit for Young Changemakers](#) hosted by Stay Work Play NH on the afternoon of Thursday, April 18, at the NH Institute of Politics at Saint Anselm College in Manchester.

This half-day, statewide gathering brings together young people who want to make NH a better place for a day of inspiration, networking, and learning.

Throughout the day, attendees will hear from engaging speakers, breakout in small working group sessions, and share their experiences as young people working to make a difference in the Granite State. Resources on how to connect with individuals and organizations throughout the state will also be available.

I believe this will be a great opportunity for networking, skills building, and professional leadership development and would love to attend with your approval to be absent from class.

Thank you for your consideration.
